Notes

- The **9 am** and **1:30 pm** time slots are conducted synchronously. Other times are for asynchronous work.
- The **WORKING** times are guidelines for parents. These timeframes are intended to allow for flexibility, empowering children to work when they learn best. They can use this time to view or listen to lessons, read, complete packets, use Apps, do projects, etc.
- A **“SHOW AND TELL”** model might be helpful to allow flexibility (i.e., students show their learning)
